

Driver's Handbook

How can I obtain a driver's handbook?

Drivers who want a handbook may purchase one at a [DriveTest](#) centre or at certain Driver and Vehicle Licence Offices. Book stores and many other stores provincewide also carry these books. Individual copies are also available for viewing at public libraries and some Ontario government libraries.

The average cost for a driver's handbook is \$12.95 or \$13.86 after tax.

Are the driver's handbooks available in the electronic or website site version?

No. The ministry's licensing manuals are published as reference materials and have been produced in a book form that can be easily kept in a vehicle glove box.

For licensing manuals to be easily accessible to drivers, they need to be available in commercial stores as well as in government offices. For this reason, the ministry entered into an exclusive distribution arrangement with a book distributor. The books are now in major book chains and other stores provincewide.

At the time the distribution arrangements were made, the Internet was not used for information distribution like it is today. We will renegotiate our distribution agreements in a little over two years. At that time, we will consider the role of the Internet in distributing this information.

Replacing a Licence

I have lost my wallet and all my ID. How can I get my driver's licence replaced?

To replace a driver's licence, visit a Driver and Vehicle Licence Office to have your photo retaken. You will be required to produce two pieces of identification bearing your signature and pay a \$10 fee. You will get a temporary licence to use until your permanent one is mailed to you.

If your driver's licence has been lost or stolen, be sure to report it to your local police. If most of your wallet identification was lost as well, you can use the following pieces of identification to replace your licence:

- citizenship card
- passport
- immigration card or permanent resident (PR) card with photo
- birth certificate
- baptismal certificate

I am the holder of an Ontario driver's licence and I am temporarily outside the province. Unfortunately, I have lost my driver's licence. How can I get a replacement or temporary licence which I need while I am here?

Normally, in order to replace a driver's licence, the ministry requires that you have your photograph retaken. If you will be returning to Ontario within the next six months, the ministry can mail you a temporary licence (if your driver's licence is valid and not cancelled or under suspension). Then when you return to Ontario, please visit a [DriveTest](#) centre to replace your driver's licence. You will be required to produce two pieces of identification bearing your signature and pay a \$10 fee.

If you will be away longer than six months, we will waive the photo requirement and replace your driver's licence, provided it is valid and not cancelled or under suspension.

For further information call or write to the ministry:

Toronto Call Centre

The ministry will require your out-of-province mailing address and either your driver's licence number or your full name and date of birth. Please let us know when you expect to return to Ontario.

Driving Age

Is the ministry planning on raising the driving age?

No. The Ministry of the Attorney General reviewed all Ontario laws that set a minimum age requirement. This was done to ensure they obeyed provisions prohibiting age discrimination under the Ontario Human Rights Code and the Canadian Charter of Rights. After this review, the government decided to maintain 16 years as the minimum legal age for many "adult" activities in Ontario, such as leaving school, working full-time, and driving.

The Ministry of Transportation agrees that the average 16-year-old has sufficient maturity and judgement to handle the responsibility of driving. Nevertheless, we are concerned by the amount of collisions involving young people and inexperienced drivers. That is why we introduced the Graduated Licensing System in 1994.

Graduated licensing introduces beginners into the driving population in a low-risk manner. Under this program, new drivers are expected to earn full driving privileges in two stages. In stage one, they learn while accompanied by a licensed driver who has at least four years of driving experience. This stage lasts 12 months

or is reduced to eight months for those who successfully complete an approved driver education course.

Is the ministry planning on lowering the driving age?

No. The Ontario government reviewed all provincial laws that set a minimum age. Our province wanted to make sure it didn't discriminate under the Ontario Human Rights code and the Canadian Charter of Rights. After this review, the government decided to maintain 16 as the legal minimum age for many "adult" activities such as leaving school, working full-time, and driving.

The Ministry of Transportation (MTO) realizes many teenagers regard a driver's licence as an important step towards independence and adulthood. Some would even like to see the driving age lowered to 15. Statistics, however, show that drivers between 16 and 20 are involved in the greatest number of collisions per age group. MTO is extremely concerned by the number of young people killed and injured in these accidents. That is why we introduced graduated licensing in 1994.

What are the rules for seniors?

Once drivers reach 80 years of age, every two years they must:

- take a vision test
- undergo a driver record review
- participate in a 45-minute Group Education Session
- complete two brief in-class screening assignments (non-computerized)
- take a road test (if necessary)

This entire renewal process will take a total of about 2 hours. Please note that this is a licence renewal program. Existing and valid licenses will be not revoked, but all requirements need to be met before your licence is renewed. You may be asked to take a road test or submit medical information from your doctor.
